

**Communication to Market Participants  
CWE Flow-Based Market Coupling**

22<sup>nd</sup> of March 2016

**Subject:** Start of monthly CWE Plain FB Market Coupling result publication

Dear Market Participant,

The CWE project partners are glad to inform you that simulation results of Plain FBMC will be published on monthly basis as of 22<sup>nd</sup> of March 2016.

**Monthly publication of plain FBMC results**

Please note that from the 22<sup>nd</sup> of March 2016 the FBMC results will be available on a monthly basis to Market Parties on the same ftp server as previously during the parallel run. In order to retrieve the results, please use the following link and login information:

- Ftp server : ftp.cwe-sf2.com (port: 21)
- User: CWE\_MC\_FB
- Password: CAn2Buse

From now on, the report of a month will be made available every 15<sup>th</sup> of the following month. The monthly reports will remain in excel format and include merely the same data as the parallel run daily report for production results and simulated Plain FBMC results (hourly prices, intuitive hours, volumes, net positions, daily PRB number for all CWE market areas, graphs on price convergence/divergence and monthly welfare overview).

For more information about Intuitiveness, please refer to [Annex 16\\_12 Intuitiveness Report.pdf](#) document on jao.eu web site.

Best Regards,

**CWE Flow-Based Market Coupling project partners**
