May 16th 2022

Following up on the previous communication, the Core Flow-Based Day-Ahead Capacity Calculation project (Core FB DA CC) parties would like to inform market participants that an update to the Core Publication Tool (<https://core-parallelrun-publicationtool.jao.eu/>) for the parallel run has been released on May 16th 2022.

More specifically, this releases integrates the Extended LTA inclusion approach in the Core Market View page (<https://core-parallelrun-publicationtool.jao.eu/coreMarketView>). This was presented in a webinar (<https://eepublicdownloads.entsoe.eu/clean-documents/Network%20codes%20documents/NC%20CCR%20Regions/Introduction%20to%20Core%20FBMC%20workshop%20-%202022%20Nov%202021.pdf>) on the November 22nd 2021

Core TSOs will keep you informed on the release of the “Automatic monitoring tool for data completeness”, which is currently planned on May 26th.

Communication channels

Questions in relation to the Core FB MC project in general, the publications of the day-ahead Core Flow-Based Capacity Calculation inputs and outputs, as well as market coupling simulation results can be raised on the Q&A forum: <http://coreforum.my-ems.net/>

Market participants that would like to follow the project development closer, are invited to join the Core Consultative Group (CCG) by sending an email to CoreCG@magnus.nl. The participants of the Core Consultative Group will receive regular information and invitations to teleconferences and meetings.

Best regards,

Core TSOs
