

JIRA Service Desk – Introduction

I. Introduction/Overview

The JIRA Service Desk is dedicated for customers to raise any request that belongs to their activity using the services of JAO. JIRA Service Desk is the first point of contact and main mean of communication of JAO operators with market participants. Using JIRA is facilitate solving of the issues as you as market participant will always be able to see the status and progress of the issues raised. All JAO operators are able to see and work on an issue raised. Users are able to make a comment on the ticket. In case of any questions for the user, a JAO Operator will contact the user via JIRA or even raise an issue assign to a user, or group of users, making the progress transparent for all sides involved. Users are able to upload files and documents on JIRA with simple drag and drop making the use of JIRA Service Desk intuitive and easy to use. The users from the same company are able to see issues raised by their colleagues that makes the communication easier.

II. Registration

In order to get access to the platform, you need to register first <u>here</u> (or copy the link into your browser <u>https://servicedesk.jao.eu/</u>).

Log in

IV. Two factor authentication (2FA) for Jira

For the initial setup use the URL: <u>https://servicedesk.jao.eu/</u> this will redirect you to the log in page.

Log in Username Password
Log in ✓ Keep me logged in Forgot your password?
Powered by 🏕 Jira Service Management

After entering your user credentials you will be redirected to the page that shows the 2FA method that needs to be configured:

Hello Test	user,
Your organ the securit	ization has introduced Two factor Authentication in your system to increase y of your account.
2FA adds a with your u make sure	an additional layer of security to the authentication process. So now, along sual login (username and password), a second factor will also be verified to only you can access your account.

By pressing on "Let's configure 2nd factor" you are redirected to the selection page:

You have two options to select from to define your primary 2FA method:

Option 1: Mobile Authenticator:

Hello Test us	er,				
Here are the	second securi	ty factor meth	ods allowed by y	our admin.	
Select any o	ne of which is r	more conveni	ent and suitable	for you.	
tou can cha	ige it anytime.				
Mobile A	uthenticator				

After clicking on the Mobile Authenticator radio button and clicking on next, a pop-up window will show you which mobile applications supports this method on what type of OS. For both iOS and Android users the app Google Authenticator is a viable option:

The 2FA app works on the widely adopted TOTP algorithm. The 2FA app supports all mobile apps which work on the TOTP algorithm. Here are a few popular mobile apps which are supported:

bile Application	Android	iPhone/iPod	Windows Phone	Black Berry
Google Authenticator	\checkmark	\checkmark	X	~
Authy Authenticator	\checkmark	\checkmark	X	~
Duo Authenticator	~	\checkmark	\checkmark	~
freeOTP	\checkmark	\checkmark	X	X
Microsoft Authenticator	\checkmark	\checkmark	\checkmark	Х
Symantec VIP	\checkmark	\checkmark	X	X
act your administrator if you do	o not find your auth	nenticator app on the lis	t or facing issues in configura	tion.
				Clos

Closing this window will show you the QR code that must be read by the installed authenticator app (in our case this remains Google Authenticator):

Hello Test user,
Please scan the QR code using any authenticator app and enter the OTP below.
Don't know how to configure Mobile authenticator, refer to this User Guide
Click here to see the list of compatible mobile authenticator apps.
Your Secret Key is URZXEHWCMI6TIKAD
Enter verification code as shown in the mobile app

Open the mobile application and select "Scan a QR code"

Set up your first account Use the QR code or setup key in your 2FA settings (by Google or third-party service). If you're having trouble, go to g.co/2sv

a. You are able to read the QR code with the app

Enter a setup key

The entry immediately appears in the authentication app:

Enter the 6 digits on the Jira 2FA screen and press "Validate code":

b. You are not able to read the QR code with the app

If the QR code could not be read, select the option "enter a setup key":

Enter the username to the "Account" field and secret key to the "Key" field. The secret key is displayed below the QR code:

	Hello Test user,	
	Please scan the QR code using any authenticator app and enter the OTP below	w.
	Don't know how to configure Mobile authenticator, refer to this User Guide	
	Click here to see the list of compatible mobile authenticator apps.	
	Your Secret Key is URZXEHWCMI6TIKAD	
Ent	er verification code as shown in the mobile app	
	Validate Code Abort and Logout	
	C Enter account details	
	C Enter account details	
	Center account details Account Key	

The token will automatically recognized and the 6 digit OTP appears on the screen:

Enter the 6 digits on the Jira 2FA screen and press "Validate code":

Right after that you need to setup the backup method. This will be used in case your primary 2FA method is not possible for any reason.

We will set up the security questions as backup method, if you wish to have the backup codes instead, read the following Section "How to Configure Backup Codes". By clicking on "Next" you will need to set up 3 security questions and respective answers. The last one is custom, so it is on you to define the question and it cannot be skipped.

		Hello Test user,	
Please	choose any 3 unique security quest At the time of login, you will be	ions and enter your ar asked any two questi	nswer in the corresponding text boxes. ions to verify your identity.
	Ques	tion	Answer
Question 1:	Select Security Question	۲	 Your Answer
Question 2:	Select Security Question		~ Your Answer
	Type a custom question		Your Answer

Once you submit the answers you have further options to set up 2FA methods, or skip and finish the process

a. Skip the process

Hit the "Skip" button:

You will be redirected to the external customer portal:

JAO Service Desk		
	JAO Service Desk	
	Welcome! Select a topic to create a request.	
	Beneficial Owner structure Updates of the structure chart of the company's ownership, identification document of the ultimate beneficial owner	
	Technical Support Unavailability of the auction tool or JAO's website, RSS/ATOM feeds	
	Finance Support Payment of invoices/selfbills and timeline, corporate Bank account update, audit confirmations	
	Auction Support Auction information, renewal of certificates, Bank guarantee	

b. To configure more methods:

After clicking on "Configure 2FA" you will be redirected to the main page of your 2FA settings under your user account.

Remaining 2FA Methods
Hello Test user,
You have successfully configured Two Factor Authentication.
You can also configure the below methods as your 2FA.
OTP Over Email
Backup Code

For information on configuring see "Set/Reset/Configure more 2FA methods" section below.

• How to Configure Backup Codes:

Once you have configured the primary 2FA method then if you wish to setup the "Backup Codes" as the Backup method, click on the Backup Codes radio button and click on next. On the screen you will see 15 unique backup/recovery codes.

In the future, in case you lose your mobile phone, then you can use these recovery codes to gain access to your account again. Click on the "Download Codes" button and click on continue. Then store the downloaded file with the backup codes at a secure location.

	Hello Test user,
The one-time Backup Code	s can be used to login in case someone doesn't have access to their phon
Please download of	r copy paste the backup codes and store them at a secure location.

• How to login with 2FA

Make sure you always use the URL <u>https://servicedesk.jao.eu</u> Enter your username and password as usual:

Username		
Password		
Log in		
🕑 Keep me logg	ed in	
Forgot your pass	word?	
Sign up for an ac	count	

The next window that you will see is the second factor authentication:

ello Test user,		
 Please enter 	verification code as shown	n in the mobile app to get the
access of Jir	a.	
In case of an	emergency, contact the a	dministrator.
inter OTP		
Remember me	on this device	
Remember me	on this device 🛟 1.	

Enter the OPT independently of the method you set.

- 1. You may mark the device as trusted, in this case it will not request 2FA from this device for the next 14 days.
- 2. "Login with other methods: can be used to switch to the Backup Method or any other methods you have set.

• Too many failed attempts

If you had 3 failed attempts to enter your OTP, the account is locked for 15 minutes.

After the validation you are redirected to the internal landing page:

• Set/Reset/Configure more 2FA methods.

You may see this screen either by the initial setup of the 2FA methods by clicking on "Configure 2FA"

Hello Test user,	
You have successfully co	onfigured Two Factor Authentication.
You can also configure th	e below methods as your 2FA.
OTP Over Email	
 Backup Code 	

Or manually navigate to this menu to this menu under the user account settings in the top right corner after the login:

In any case you will get the settings menu:

1. Reset:

"Reset" indicates to reset the methods you already configured. When you click on the reset, the button will change to "Configure".

💽 Test u	ser					Back To Help C

V. Creating a ticket

Creating a ticket regarding an issue, select the relevant type:

- **Beneficial owner structure** Updates of the structure chart of the company's ownership, identification document of the ultimate beneficial owner.
- **Technical Support** Unavailability of the auction tool or JAO's website, RSS/ATOM feeds.
- **Finance Support** Payment of invoices/selfbills and timeline, corporate Bank account update, audit confirmations.
- Auction Support Auction information, renewal of certificates, Bank guarantee.
- **Registration** Company registration (incl. participation agreement amendments), auction tool user access.
- Business bank account Funds transfer request, ING inside Business access.
- **Contestation** Contestation of auction results.

Whenever you want to visit this page, just click on the 'JAO Service Desk' link at top left corner of the screen.

In the following example a Technical Support related ticket was created. After clicking on the relevant category, the request can be detailed on the following page:

JAO - S	Service desk nical Support
Summary	
Password reset	
Description (option	nal)
Hi, Can you please	reset my password for <u>eCAT</u> , my username is " <u>doej</u> "
Best Regards, Jane Doe	
Attachment (option	nal)

A short summary and a detailed description is essential plus attachments are welcomed as well (there are no file restrictions, .pdf, .jpg, .jpeg, .png, .xlsx, .csv, .xml, .docx, .zip, .cert etc. can be also attached).

The attached files (print screens for better understanding of an issue, certificates, etc.) are easy to upload, using the box Attachment, either clicking on browse and finding a file on your PC, or just by dragging and dropping them in the attachment box.

VII. Ticket Follow-up

You will still be able to check your ticket or comment (if needed). Clicking again on the 'Requests', make sure, that you are using the right filters, since the ticket was solved/resolved, you need to select 'Any status' or 'Closed requests'. Please also note, that you can see your colleagues' tickets (if they selected to share the ticket with your company) just change to filter from 'Created by me' to 'Created by anyone'.

AO Service Desk							Requests 1
	Reques	ts					
						🚹 Export 🛩	
	Any statu:	s	✓ Created by me	✓ Any request type ✓		Q	
	Туре	Reference	Summary	Service desk	Status	Requester

		JAOPUB-1126	Access request to JAO for Jane Doe	JAO - Access Request	CLOSED	Jane Doe	
	1-3 of 3						
			Powered	by 👉 Jira Service Desk			

If no further actions are required, the JAO Operator will close the ticket. Then it cannot be commented on anymore, a new ticket has to be opened for handling another issue.

Note: If you refer to a previous ticket with its *reference number*, the JAO Operator can reopen the ticket if needed.

VIII. User Profile

You can edit your user profile, meaning:

- Change your current password
- Change your phone number
- Change your Full Name

Just simply click on the 'Profile' menu in the top right corner of your screen.
