

Our client's satisfaction is critical for us.

Quarterly JAO Open Call

10.12.2024

Introduction

Agenda

1. Retrospection
2. New Service Desk Concept
3. Finance related updates
4. Changes and Improvements
5. Auction Calendar
6. User Group Updates
7. Q & A

Retrospection

CEE Monthly Auction run with wrong Offered Capacity.

Monthly Auction CEEXD-M-BASE-----240901-01 was opened with 0 ATC values.

After assessing the technical and legal aspect of the issue the second round of the auction has been executed on 06.09.2024.

Retrospection

Resale issue during maintenance period

Incorrect calculations in the auction tool led to overallocation of capacity during maintenance for two auctions

The issue occurred after two consecutive returns were placed on the IF1-FR-GB-Q-BASE---241001-01 auction. One return was made from a flat-based product and another from a maintenance-based product. The system combined the return quantities instead of handling them separately

New Service Desk Concept

New Microsoft Dynamics based ticketing platform

Goals:

- easy access for the customers via email
- multi-level ticket handling
- detailed customer feedbacks

Planned Go-live date: Q1 2025

Finance Related Updates

Auction Calendar

Concept of the User Group

- The User group has been established to provide advice to JAO on matters related to the IT interfaces and services provided by JAO.
- Enhancing our knowledge on participants needs and receiving feedback on their experience with JAO is essential to maintain their trust and to continuously improve our services.
- Biannual meetings (one virtual and one in-person) organized for a select group of market participants.

Evolution of the User Group

- Evolution of the role of User group :
 - Bigger focus on operation matter
 - Involvement in test
 - Sharing best practice
- Call for candidates

Q & A

EDF Trading Ltd:

Are there any plans to introduce a JAO test environment? This will be very helpful especially with the new Helix platform going live.

Thank you!
