

Please find below the questions that are included in the Consultation Survey:

Consultation survey FB IDCC methodology		
	Question	Reference to chapter / paragraph of Technical or Context Paper
A. Introduction		
1	After studying the consultation document, do you have a clear view on the challenges and benefits of the implementation of Flow Based intraday capacity calculation?	
B. Coordinated Flow Based intraday capacity calculation process		
2	Are the inputs for the capacity calculation clearly described and understandable?	TP: chapter 3.1 CP: chapter 3.1
3	Is the capacity calculation process clearly described and understandable?	TP: chapter 3.2 CP: chapter 3.2
4	Are the outputs of the capacity calculation process clearly described and understandable?	TP: chapter 3.3 CP: chapter 3.2
5	Which sections of the capacity calculation process should be more clearly described?	TP: chapter 3 CP: chapter 3
6	Is the re-assessment of ID ATCs for allocation process clearly described and understandable?	TP: section 3.4 CP: chapter 3.3
7	Do you feel sufficiently informed about the method of Remedial Action Optimization and their influences for cross-border capacity?	TP: section 3.1 and 3.2
8	TSO developed the optimisation function in order to have a positive impact on the market as it will provide more domain in the likely market directions (around the DA market clearing point). Do you agree with this point of view?	TP: chapter 3.2 CP: chapter 3.2
9	Do you think it is justified to optimize the ID FB domain around the DA Market Clearing Point (MCP), knowing it can lead to FB domain reductions in the unlikely market directions?	TP: chapter 3.2 CP: chapter 3.2
C. Expert experimentation results and parallel run		
10	Are you convinced by the experimentations performed so far and the foreseen developments?	CP: chapter 4

11	What are your expectations from the external parallel run process?	
12	Do you have enough information (results, explanations) about the performed IDCC experimentation to get a clear picture of the possible impact on cross-border capacities for the ID market?	CP: chapter 4
D. Publication of data		
13	Do you have enough information regarding the Flow Based intraday capacity calculation process?	TP: chapter 5
E. Additional questions		
14	What are your general expectations from the new IDCC process?	
15	What are the most important go-live criteria for the process from your point of view?	
16	What is your most important criterion regarding the capacity calculation process and output? (predictability of capacity, volume of capacity...)
