

# Elia Intraday Access - Report

## Activation from the 11<sup>th</sup> of August 2019

### 1. Reason and timing of activation

Due to congestion into the grid of National Grid Electricity System Operator (NGESO), NGESO requested to Elia the activation of countertrading on Nemo Link from Great Britain towards Belgium on the 11<sup>th</sup> of August 2019 from 00.00am until 11.00 am.

### 2. Activated volume and price

- Elia imported 99MWh from 00.00am until 11.00am.
- Elia used the Intraday Market Access for selling a total volume of 1089MWh (99MWh \* 11 hours).
- The weighted average price for selling the whole volume equals 9,53€/MWh of revenues, in total representing 10381,04€.
