Rule for day type definition:

regional German (DE)	
special days =	no special day
*LUX special days =	neglected
day type =	Sunday, if at least 4 countries of AT/BE/FR/DE/NL declare a special day (also regionally for DE) OR if a special day of one country is on a Sunday
day type =	Saturday, if 2 or 3 countries of AT/BE/FR/DE/NL declare a special day that is no Sunday
day type =	Reference Day, if only 1 country of AT/BE/FR/DE/NL declares a special day

explanation for DE (implies DE/LUX Bidding Zone)

x	special day in whole country
x (regionally)	special day/bank holiday in larger regions
not significant	special day/bank holiday in a small region

special arrangement for 'ordinary' days that have a special day as reference day

According to the HLRP the reference day is:

- o for Tuesday to Friday: D-1 (most recent program)
- o for Monday: D-3 (previous Friday)
- o For Saturday and Sunday: D-7 (previous week)
- o For bank holidays and specific outages, a reference day will be determined and fixed in a separate calendar approved by all CWE TSOs.
