

Invitation to DE-AT Stakeholders

13th of October 2017

Dedicated Market Parties Conference on the implementation of capacity allocation on the DE-AT bidding zone border

24th of November

Dear Market Participants, dear representatives of Associations,

DE-AT TSOs would like to invite you to the dedicated DE-AT BZB¹ Market Parties Conference. Insight to the project will be given by the respective TSOs, Nominated Power Exchanges and National Regulatory Authorities.

Objective for this Market Parties Conference is to inform Market Parties of the status of the DE-AT BZB project, provide the opportunity to raise questions and answer them to secure involvement of Market Parties.

The conference will be held on **November 24th 2017 from 08:30 - 12:45 am in Vienna** (further details will follow).

DE-AT BZB TSOs kindly invite you to confirm your participation by completing the registration form on <https://www.surveymonkey.com/r/DLWMLJN> before **October 20th**. Considering the limited number of places and in order to ease the discussion, only one person per company can register. If you have any questions about the organisation, you can contact us via email: c.beerepoot@magnus.nl.

We would like to remind you that the DE-AT BZB Market Parties Conference is meant to inform and answer questions related to the DE-AT BZB implementation and the impact this has on Market Parties.

Please be also aware that the DE-AT BZB project informs via the JAO Platform as well, see www.jao.eu → Support → DE-AT BZB PROJECT (<http://www.jao.eu/support/resourcecenter/overview?parameters=%7B%22IsDEATBZBProject%22%3A%22True%22%7D>) and via other bodies (e.g. CWE Consultative Group Meetings).

¹ DE-AT BZB stands for DE-AT Bidding Zone Border and is the name of the project to implement capacity allocation on DE-AT border.

Please find here a DRAFT agenda of the meeting:

8:30 - 9:00: Registration and coffee

- Background of the DE-AT BZB project
 - Background of the project
 - Formal decisions in the EU context
 - Explanation for decisions for implementation of DE-AT BZB
