

**[CWE Flow-Based Market Coupling] Changes in seasonal Fmax ratings for the Belgian grid elements.**

Dear Market Participants,

Following the approval of the CWE standard approach for changes in the CCG of 30/03/2016, Elia would like to inform you that the static  $F_{\max}$  rates (thermal limits of the overhead lines) of the Belgian critical branches are going to be set to the new regime according to the given table hereunder.

Season	Start	End	Length
Winter	16 november	15 march	4 months
Spring	16 march	15 may	2 months
Summer	16 may	15 september	4 months
Autumn	16 september	15 november	2 months

Best Regards,  
Elia
