

## **CAPACITY AVAILABILITY AT GREECE-ITALY INTERCONNECTION**

***June 16<sup>th</sup>, 2017***

With reference to the yearly maintenance of the HVDC cable on the Italian-Greek interconnection, Terna and ADMIE inform market participants that the maintenance work will be completed on time (June 18<sup>th</sup>).

Therefore, the NTC will be restored at 500 MW starting from 18:00 of the 18th June. Consequently the first daily auction will be held the 17th of June.

Possible update referred to this notice will be promptly communicated by Terna and ADMIE.
