

Communication to Market Participants

06<sup>th</sup> of June 2016

## Central Western Europe Flow-Based Market Coupling (CWE FB MC)

**Subject: German/Austrian Generation share key update on 7<sup>th</sup> June 2016**

Dear Market Participants,

On the 7th of June 2016 (planned go-live date of FBCE V2.1) for business day 9<sup>th</sup> of June the German TSOs and APG intent to update the share key for merging the DE/AT-GSK in the CWE Flow-Based capacity calculation process.

The share key is slightly adapted due to changes in the production park in control areas of Amprion and Tennet Germany.

The share keys will change as follows:

- **German TSOs and APG are updating the shares regularly to provide best forecast models to reflect actual grid developments, power plant availabilities, generation patterns etc.**

### actual GShK

	<u>Week days peak</u>	<u>Week days off-peak</u>	<u>Weekends peak</u>	<u>Weekends off-peak</u>
Amprion	0,43	0,385	0,353	0,324
TransnetBW	0,133	0,126	0,139	0,138
TTG	0,177	0,187	0,186	0,184
50Hertz	0,089	0,121	0,082	0,117
APG	0,171	0,181	0,24	0,237

### GShK updated

	<u>week days peak</u>	<u>week days off-peak</u>	<u>weekend peak</u>	<u>weekend off-peak</u>
Amprion	0,440	0,396	0,398	0,360
TransnetBW	0,140	0,129	0,128	0,129
TTG	0,156	0,166	0,173	0,175
50Hertz	0,090	0,123	0,078	0,111
APG	0,174	0,186	0,223	0,225

Best regards,

**The CWE TSOs**
